

Activity 1: Build a Play Fort

Shape and Space

- Constructing 3D shapes
- Identifying shapes in the environment
- Solve problems using shapes

Materials

- Properties and characteristics of materials
- Explore how different materials can be used in the creation of homes in their environment

Measures

- Solve practical tasks involving length
- Estimate and measure area using non-standard units
- Understand the concept of length through exploration

Skills

- Communicating and expressing
- Implementing
- Applying and problem solving

Step 1: Make a plan

Draw a picture of your fort. Label the parts.

- Will your fort be inside or outside?

Step 2: Write a list of what you need

Step 3: Make your fort

- Gather the materials on your list.
- Make your fort.
 - What worked well?
 - What would you change next time?
 - How will you use your fort?

Step 4: Have fun in your fort

- Play with your favourite toys.
- Make a picnic and eat it in your fort.
- Read a book in your fort.
- What other ideas can you come up with?
